🧠 SKILLS

Mentorship & Training — Proficient

Web Penetration Testing & Bug Hunting — Expert

Web Application Security Testing — Expert

Advanced Computing & Office Tools — Expert

Web Development (Frontend Focused) — Expert

Data Entry — Expert

Programming Languages — Competent
JavaScript, Python, HTML, CSS

Frameworks & UI — Proficient
Next.js, Tailwind CSS, Shadcn UI

✍️ SUMMARY

Cybersecurity professional with hands-on experience in ethical hacking, web application penetration testing, and digital forensics. Adept at identifying vulnerabilities, performing security assessments, analyzing digital evidence, and supporting incident response. Strong problem-solving skills with a keen eye for detail and a commitment to strengthening organizational security and protecting critical data.

EXPERIENCE

2023 – 2024

Mentor, PFM Computer Training Center

Taught advanced computer operations and Microsoft Office tools to fellow students. Selected by institute teachers to mentor peers in practical computing and applications.

PROJECTS

Portfolio Website

- Developed with Next.js, Tailwind CSS, Express.js, Node.js and MongoDB showcasing personal works, certifications, achievements and contact info.
- <https://sifat-xyz.vercel.app> 

Terminal Vibes Portfolio

- Cyberpunk design, hacker soul inside out.
- <https://sifat-asr.vercel.app/> 

Cyberpunk Style Portfolio Website

- Terminal vibes, futuristic tone, personal edge.
- <https://sifat-pr.vercel.app/> 

Password Strength Checker

- Interactive password checker with live strength meter. **(Realtime, Web-Based, App)**
- View Web App
